Cyber bullying is becoming increasingly popular due to the ubiquity of mobile devices and increasing online access. Cyber bullying is not different from any other bullying but it **can spread more** rapidly and can be even more devastating for victims.

School Education Gateway is organizing an online course: **Bullying - NOT in my class! Creating safe learning environments for students**

The aim of the course are to enable educators understand different types of bullying, including cyber bullying and also to empower educators to better deal with bullying.

Heads of Schools are kindly asked to encourage staff to register their participation for this online course, by clicking on: <http://bit.ly/bullying-course>
