The University of Malta, supported by the Erasmus+ Program, cordially invites you to register for a half-day multiplier event seminar on Developing Responsible ICT Competencies in Teachers & Initial Teacher Education Programs

Educators are realising the importance of instilling and enhancing responsible innovative teaching and learning.

DICTE is an ERASMUS+ program directed to complement these changes by supporting and developing teacher's responsible awareness and skills development towards ICT use in formal educational contexts

Malta is being represented by practitioners and academics from The Digital Literacy Unit within the Ministry of Education and the University of Malta

The seminar will include insightful talks and related accompanying workshops

Attendees will therefore have the opportunity to share and discuss issues with experts from Directorate for Digital Literacy & Transversal Skills within MEDE, participant teachers and academics from the Faculty of Education at the University of Malta and other experts.

A certificate of attendance and participation will be issued by the University of Malta to all those attending.

Kindly note that places available are limited and are on first come first served basis.

Food and refreshments will be served during and after the seminar

DICTE

Co-funded by the
Erasmus+ Programme
of the European Union
