Subject: Support in technology-mediated teaching and learning

Please bring this information to the attention of your staff.

The Directorate for Digital Literacy and Transversal Skills is committed to continue to support educators in using technologies and enable them to address the challenges they may face. Many educators are seeking supports about the use of Microsoft Teams, including how to create standard and private channels, how to assign homeworks and how to use the class notebook. Kindly note that we are providing remote support through our Support Teachers, and educators are highly encouraged to contact us for any queries related digital teaching and learning.
