

LETTER CIRCULAR

Date: 15th October 2021

Ref: DDLTS 35/2021

To: All Heads of Schools (State and Non-State) and Sections

From: Mr Vincent M. Carabott – Education Officer Digital Literacy

Subject: Empowering your school's digital capacity. From reflection to innovation action plans

The SELFIEPTKMOOC co-funded by the Erasmus+ Programme of the European Union is inviting educators to participate in a MOOC about **Empowering your school's digital capacity. From reflection to innovation action plans.**

This course is an online training by the SELFIE HelperR & Pedagogical Innovation Assistant (SHERPA) Erasmus+ project with which you will get a clearer picture of how the learning community sees and feels about digital education in your school: how its members see to what extent digital technologies are embedded in your school's educational context and how they feel about their competence and capacity to contribute.

The MOOC objectives are:

- To provide a learning path for school coordinating teams (i.e., school leaders, and all those teachers who have a specific role in the school, e.g., ICT coordinator teachers, curriculum teachers, etc.) who want to improve the digital capacity of their schools, acting as change agents in their work environment.
- To support schools' understanding and uptaking of SELFIE PTK and SELFIE HELPER to foster their digital capability.
- To contribute to the development of an ecosystem around the SELFIE tool supporting European schools in their digital transformation.

The MOOC will start on Monday, 1st November 2021 and ends on Sunday, 28th November 2021.

Further information and registration details about this course may be accessed from:
