

LETTER CIRCULAR

Date: 16th June 2022

Ref: DDLTS 19/2022

To: All Heads of College Network & Heads of Primary Schools (State & Non-State)

From: Directorate for Digital Literacy and Transversal Skills (DDLTS)

Subject: Cloud-based Ecosystem for the Development of 21st Century Skills for students in Years 1 – 6 across State and Non-State schools

The Directorate for Digital Literacy and Transversal Skills (DDLTS) will be launching a Cloud-based Ecosystem for the Development of 21st Century Skills for students in Years 1 – 6 across State and Non-State schools, as part of the ESF.03.059 – One Tablet Per Child Project, starting from beginning of Scholastic Year 2022/2023.

This online educational system will offer a suite of applications for primary school students to develop 21st century skills, whilst interacting and collaborating within a child-friendly learning environment. The system will enable students to create digital content across all curricular areas. This activity implements the recommendation of the Digital Education Action Plan (2021- 2027) to invest in basic digital skills and competences from an early age, particularly digital literacy. Furthermore, interested schools/educators will receive training to make the best use of this learning experience.

Heads of College Network, Heads of Church and Independent Schools interested to participate in this initiative are kindly being requested **to nominate a Contact Person** to facilitate the communication and coordination of this initiative. Kindly provide the details of the contact person through the following link: <https://forms.office.com/r/HYdrknySuC> by **not later than Friday 24th June 2022**.

Further information will be communicated to the contact persons in due course. You may wish to access the attached [Power Point Presentation](#) for your perusal.

Grazio Grixti
Director
Directorate for Digital Literacy and Transversal Skills
