

## LETTER CIRCULAR

**Date:** 12<sup>th</sup> June 2023

**Ref:** DDLTS 15/2023

**To:** All Heads of Secondary Schools (State and Non-State) and Sections

**From:** Dr. Omar Seguna -Education Officer Digital Literacy

**Subject:** Comic Book amongst Computing and Vocational IT students

---

The Malta Digital Innovation Authority (MDIA) published a **Comic Book** (The Maltaverians Comics Project) with an innovative storyline that addresses technology-related topics which will be distributed among students who chose **Computing or Vocational IT** in secondary schools. The comic book can also be accessed in digital format <https://www.mdia.gov.mt/news-events/issue-1-the-maltaverians-comic-an-amazing-bit-of-data/>

This project of publishing a series of comics focused on digital innovation technology aims to:

1. emphasize the importance of expanding teens' knowledge in this rapidly evolving field.
2. enhance their understanding of the latest technologies and potentially guide them towards their future careers.

By incorporating engaging visuals and storylines, the comics will pique the interest of young readers and promote a deeper comprehension of innovative technologies that are shaping our world. In addition, the inclusion of a glossary within the publications will further clarify technological terms and concepts, making the material more accessible and informative.

Head of schools are kindly requested to disseminate these comic books to students once they reach their schools.

**Mr. Neil Attard**  
**Director**  
**Directorate for Digital Literacy and Transversal Skills**
